

## **FUEL MANAGEMENT & TRANSFER SYSTEMS**

Fuel Management & Transfer Systems (FMTS) specialise in the field of Fuel Management

Fuel Management & Transfer Systems (FMTS) is the official distributor of SMART FILL Fuel Management System from Australia. We provide complete solution for your Fuel Management.

FMTS provides turn key solutions for your Fuel application. We track the fuel sourced from third party suppliers, Provide 24/7 tracking features of the fuel stored in your storage tanks with SMS sent to selected mobile number of your choice and at any specified time, and finally track the fuel being delivered to your fleet, which is vehicle, driver & location specific. The system integrates with the latest Nozzle RFID System, Driver FOBs & keys with precise date, time and location details, tamper proof transactions recorded for reference and 24/7 on line reporting.

We also provide all the necessary equipments like Fuel Flow Meters, Fuel Pumps, Fuel Dispensers, Hose Reel, Loading Arms, Water Separators, Fuel Strainers – Simplex and Duplex, Fuel Storage Tank Fittings, Overfill Prevention Valves, Leak Sensors, Aviation Fuel Filters and Separators and all fuel related items. With a proven track record of thirteen year of service in the fuel related field we can offer you the very best solution at the very best price.
